and printed in Great Britain

for the Society for Applied Bacteriology by

the Alden Press, Oxford

(Volume 48, Numbers 1 to 3, 1980)

Contents

No. 1 (*issued February* 1980)

PAGE

A Review
Maceration in Relation to the Post-harvest Handling and Processing of Plant Material. By A. CHESSON 1
New strains of *Bacillus licheniformis* and *Bacillus coagulans* producing Thermostable α-Amylase Active at Alkaline pH. By S. MEDDA and A. K. CHANDRA 47
A Note on the Effect of Hydrogen Chloride on the Morphology of *Bacillus subtilis* Spores. By H. L. M. LELIEVELD 59
Storage of *Escherichia coli* Strains Containing Plasmid DNA in Liquid Nitrogen. By M. D. BREESE and R. J. SHARP 63
The Occurrence and Significance of *Pseudomonas* in Wiltshire Bacon Brines. By G. A. GARDNER 69
Fatty Acid and Isoprenoid Quinone Composition in the Classification of *Bacteroides melaninogenicus* and Related Taxa. By H. N. SHAH and M. D. COLLINS 75
The Relationship between Structure and Activity of Taurolin. By E. MYERS, M. C. ALLWOOD, M. J. GIDLEY and J. K. M. SANDERS 89
A Note on the Nature and Sequence of Yeasts during Fermentation of Apples grown in India. By S. ETHIRAJ, J. ONKARAYYA and E. R. SURESH 97
Enumeration of Vital and Thermally Stressed *Staphylococcus aureus* in Foods Using Baird-Parker Pig Plasma Agar (BPP). By E. S. IDZIAK and D. A. A. MOSSEL . . 101
Anaerobic Fusiform-shaped Bacteria Isolated from the Caecum of Conventional Mice. By S. ROACH and G. W. TANNOCK 115
Growth Factors of Bacterial Origin for the Culture of the Rumen Oligotrich Protozoon, *Entodinium caudatum*. By R. ONODERA and C. HENDERSON 125
The Structure and Function of the Spore Outer Membrane in Dormant and Germinating Spores of *Bacillus megaterium*. By A. CRAFTS-LIGHTY and D. J. ELLAR 135
The Attachment of Bacteria to the Gastric Epithelium of the Pig and its Importance in the Microecology of the Intestine. By P. A. BARROW, B. E. BROOKER, R. FULLER and M. J. NEWPORT 147
Book Reviews 155

No. 2 (*issued April* 1980)

A Review
Antimicrobial Activity, Uses and Mechanism of Action of Glutaraldehyde. By S. P. GORMAN, E. M. SCOTT and A. D. RUSSELL 161
Interactive Growth of *Staphylococcus aureus* Strains with a Poultry Skin Microflora in a Diffusion Apparatus. By P. A. GIBBS, J. T. PATTERSON and J. HARVEY 191
A Note on the Fate of El Tor Cholera and Other Vibrios in Percolating Filters. By R. R. DANIEL and B. J. LLOYD 207
Water Relations of Glucose-catabolizing Enzymes in *Pseudomonas fluorescens*. By B. A. PRIOR and C. P. KENYON 211
Cell Wall-mediated Changes in Sensitivity of *Bacillus megaterium* to Chlorhexidine and 2-Phenoxyethanol, Associated with Growth Rate and Nutrient Limitation. By P. GILBERT and M. R. W. BROWN 223
Thermal Activation and Dry-heat Inactivation of Spores of *Bacillus subtilis* MD2 and *Bacillus subtilis* var. *niger*. By T. R. GURNEY and L. B. QUESNEL 231
Thiaminase Activity Amongst Strains of *Clostridium sporogenes*. By T. J. T. PRINCEWILL 249
Studies on Acid Tolerance of *Rhizobium trifolii* in Culture and Soil. By E. S. P. BROMFIELD and D. G. JONES 253

A Note on Scanning Electron Microscopy of Micro-organisms Associated with the Kefir Granule. By V. BOTTAZZI and F. BIANCHI 265
Fatty Acid and Polar Lipid Composition in the Classification of *Kurthia*. By M. GOODFELLOW, M. D. COLLINS and D. E. MINNIKIN 269
A Note on the Separation of Natural Mixtures of Bacterial Menaquinones using Reverse Phase Thin-layer Chromatography. By M. D. COLLINS, H. N. SHAH and D. E. MINNIKIN 277
Radioiodination of Enterotoxin from *Clostridium perfringens* Type A using Chloramine T. By R. SKJEJKVÅLE 283
The Occurrence of *Bacillus cereus* in some Dried Foods Including Pulses and Cereals. By L. J. BLAKEY and F. G. PRIEST 297
The Avian Eggshell—a Resistance Network. By R. G. BOARD 303
The Recovery of Sublethally Injured *Escherichia coli* from Frozen Meat. By B. M. MACKEY, C. M. DERRICK and J. A. THOMAS 315
Characterization of *Fusobacterium* Species Isolated from Soft Tissue Infections in Cats. By D. N. LOVE, R. F. JONES and M. BAILEY 325
Book Reviews 333

No. 3 (*issued June* 1980)

Growth of an Ethane-utilizing Mixed Culture in a Chemostat. By J. D. LINTON, A. R. GODLEY, M. L. BAILEY and L. J. BARNES 341
Effect of R-plasmid RP1 and Nutrient Depletion on the Resistance of *Escherichia coli* to Cetrimide, Chlorhexidine and Phenol. By R. M. M. Klemperer, N. T. A. J. ISMAIL and M. R. W. BROWN 349
Production of a Penicillin-like Antibiotic by *Trichophyton mentagrophytes* on an Agar-based Medium Containing Skin Keratin as the Major Nutrient. By C. RYALL, G. HOLT and W. C. NOBLE 359
Persistence and Distribution of *Erysipelothrix rhusiopathiae* and Bacterial Indicator Organisms on Land Used for Disposal of Piggery Effluent. By D. S. CHANDLER and J. A. CRAVEN 367
Yersinia enterocolitica in Danish Pigs. By S. G. Christensen 377
Repeated Isolation of *Yersinia enterocolitica* from Pasteurized Milk in a Holding Vat at a Dairy Factory. By D. HUGHES 383
Aerobic Metabolism of *Brochothrix thermosphacta* Growing on Meat Surfaces and in Laboratory Media. By R. H. DAINTY and C. M. HIBBARD 387
Growth of *Bacillus cereus* in Media Containing Plant Seed Materials and Ingredients Used in Chinese Cookery. By L. R. BEUCHAT, C. F. A. MA-LIN and J. A. CARPENTER . 397
Effect of High Concentrations of Carbon Dioxide on Growth Rate of *Pseudomonas fragi*, *Bacillus cereus* and *Streptococcus cremoris*. By S.-O. ENFORS and G. MOLIN . . 409
The Effect of Hydrogen Peroxide and Ultraviolet Irradiation on Non-sporing Bacteria. By C. E. BAYLISS and W. M. WAITES 417
Inhibition of Growth and Uptake Processes in Bacteria by Some Chemical Food Preservatives. By T. EKLUND 423
A Note on the Development of a Technique for Regeneration of a Degenerated Culture. By H. K. KOLE and S. K. BOSE 433
Effects of Sulphate, Iron and Hydrogen on the Microbiological Conversion of Acetic Acid to Methane. By L. VAN DEN BERG, K. A. LAMB, W. D. MURRAY and D. W. ARMSTRONG 437
The Interaction of Glycerol and an Iodophor Teat Dip. By K. S. GODINHO and A. J. BRAMLEY 449
A Medium for Detecting β-(→3)Glucanase Activity in Bacteria. By A. M. MAHASNEH and D. J. STEWART 457
Lipids in the Classification and Identification of Coryneform Bacteria Containing Peptidoglycans Based on 2,4-Diaminobutyric Acid. By M. D. COLLINS and D. JONES . 459
Book Reviews 471

Index of Subjects

Acetic acid, microbiological conversion of to methane (van den Berg, Lamb, Murray & Armstrong) 437

α-Amylase, thermostable, produced by new strains of *Bacillus licheniformis* and *Bacillus coagulans* (Medda & Chandra) 47

Apples, nature and sequence of yeasts during fermentation of (Ethiraj, Onkarayya & Suresh) 97

Bacillus cereus, effect of high concentrations of carbon dioxide on growth rate of (Enfors & Molin) 409
occurrence of in some dried foods (Blakey & Priest) 297

Bacillus coagulans, new strains of (Medda & Chandra) 47

Bacillus licheniformis, new strains of (Medda & Chandra) 47

Bacillus megaterium, sensitivity of to chlorhexidine and 2-phenoxyethanol (Gilbert & Brown) 223
structure and function of the spore outer membrane in dormant and germinating spores of (Crafts-Lighty & Ellar) 135

Bacillus subtilis MD2, thermal activation and dry-heat inactivation of spores of (Gurney & Quesnel) 231

Bacillus subtilis spores, effect of hydrogen chloride on morphology of (Lelieveld) 59

Bacillus subtilis var. *niger*, thermal activation and dry-heat inactivation of spores of (Gurney & Quesnel) 231

Bacon brines, the occurrence and significance of *Pseudomonas* in (Gardner) 69

Bacteria, a medium for detecting β-(1→3) glucanase activity in (Mahasneh & Stewart) 457

Bacterial menaquinones, separation of natural mixtures of (Collins, Shah & Minnikin) 277

Bacteroides melaninogenicus, classification of (Shah & Collins) 75

Brochothrix thermosphacta, aerobic metabolism of (Dainty & Hibbard) 387

Caecum, of conventional mice, anaerobic fusiform-shaped bacteria isolated from (Roach & Tannock) 115

Cats, *Fusobacterium* species isolated from soft tissue infections in (Love, Jones & Bailey) 325

Cetrimide, resistance of *Escherichia coli* to (Klemperer, Ismail & Brown) 349

Chemical food preservatives, inhibition of growth and uptake processes in bacteria by (Eklund) 423

Chemostat, growth of an ethane-utilizing mixed culture in a (Linton, Godley, Bailey & Barnes) 341

Chlorhexidine, resistance of *Escherichia coli* to (Klemperer, Ismail & Brown) 349

Chorhexidine, sensitivity of *Bacillus megaterium* to (Gilbert & Brown) 223

Clostridium perfringens Type A, radioiodination of enterotoxin from (Skjelkvåle) 283

Clostridium sporogenes, thiaminase activity amongst strains of (Princewill) 249

Cookery, Chinese, growth of *Bacillus cereus* in media containing ingredients used in (Beuchat, Ma-Lin & Carpenter) 397

Coryneform bacteria, lipids in the classification and identification of (Collins & Jones) 459

Culture, degenerated, regeneration of (Kole & Bose) 433

2,4-Diaminobutyric acid, coryneform bacteria containing peptidoglycans based on (Collins & Jones) 459

DNA, plasmid, storage of *Escherichia coli* strains containing (Breese & Sharp) 63

Enterotoxin, radioiodination of, from *Clostridium perfringens* Type A (Skjelkvåle) 283

Entodinium caudatum, growth factors of bacterial origin for the culture of (Onodera & Henderson) 125

Enzymes, glucose-catabolizing, in *Pseudomonas fluorescens* (Prior & Kenyon) 211

Erysipelothrix rhusiopathiae, persistence and distribution of on land used for disposal of piggery effluent (Chandler & Craven) 367

Escherichia coli, resistance of to cetrimide, chlorhexidine and phenol (Klemperer, Ismail & Brown) 349
sublethally injured, recovery of from frozen meat (Mackey, Derrick & Thomas) 315

Ethane-utilizing mixed culture, growth of in chemostat (Linton, Godley, Bailey & Barnes) 341

Foods, enumeration of vital and thermally stressed *Staphylococcus aureus* in (Idziak & Mossel) 101

Fusobacterium species, from infections in cats (Love, Jones & Bailey) 325

Glutaraldehyde, antimicrobial activity, uses and mechanism of action of (Gorman, Scott & Russell) 161

Hydrogen chloride, effect of on *Bacillus subtilis* spores (Lelieveld) 59

Hydrogen peroxide, effect of on non-sporing bacteria (Bayliss & Waites) 417

Intestine, microecology of (Barrow, Brooker, Fuller & Newport) 147

Iodophor teat dip, interaction of glycerol and (Godinho & Bramley) 449

Isoprenoid quinone composition, in classification of *Bacteroides melaninogenicus* (Shah & Collins) 75

Kefir granule, scanning electron microscopy of micro-organisms associated with (Bottazzi & Bianchi) 265

Kurthia, fatty acid and polar lipid composition in the classification of (Goodfellow, Collins & Minnikin) 269

Liquid nitrogen, storage of *Escherichia coli* strains containing plasmid DNA in (Breese & Sharp) 63

Meat, frozen, recovery of sublethally injured

Escherichia coli from (Mackey, Derrick & Thomas) 315
Meat surfaces, *Brochothrix thermosphacta* growing on (Dainty & Hibbard) 387
Methane, microbiological conversion of acetic acid to (van den Berg, Lamb, Murray & Armstrong) 437
Mice, anaerobic fusiform-shaped bacteria from caecum of (Roach & Tannock) 115
Milk, pasteurized, repeated isolation of *Yersinia enterocolitica* from (Hughes) 383
Non-sporing bacteria, effect of hydrogen peroxide and ultraviolet irradiation on (Bayliss & Waites) 417
Peptidoglycans, coryneform bacteria containing (Collins & Jones) 459
Percolating filters, fate of El Tor cholera and other vibrios in (Daniel & Lloyd) 207
Phenol, resistance of *Escherichia coli* to (Klemperer, Ismail & Brown) 349
2-Phenoxyethanol, sensitivity of *Bacillus megaterium* to (Gilbert & Brown) 223
Pig, attachment of bacteria to the gastric epithelium of (Barrow, Brooker, Fuller & Newport) 147
Piggery effluent, distribution of *Erysipelothrix rhusiopathiae* on land used for the disposal of (Chandler & Craven) 367
Pigs, Danish, *Yersinia enterocolitica* in (Christensen) 377
Plant material, post-harvest handling of (Chesson) 1
Poultry skin microflora, interactive growth of *Staphylococcus aureus* strains with (Gibbs, Patterson & Harvey) 191
Pseudomonas, occurrence and significance of in Wiltshire bacon brines (Gardner) 69
Pseudomonas fluorescens, glucose-catabolizing enzymes in (Prior & Kenyon) 211
Pseudomonas fragi, effect of high concentrations of carbon dioxide on growth rate of (Enfors & Molin) 409
Pulses and cereals, occurrence of *Bacillus cereus* in (Blakey & Priest) 297
Regeneration of a degenerated culture, a technique for (Kole & Bose) 433
Resistance network, the avian eggshell as a (Board) 303
Rhizobium trifolii, acid tolerance of in culture and soil (Bromfield & Jones) 253
Skin keratin, as the major nutrient in an agar-based medium (Ryall, Holt & Noble) 359
Spore outer membrane, structure and function of in dormant and germinating spores of *Bacillus megaterium* (Crafts-Lighty & Ellar) 135
Staphylococcus aureus, enumeration of in foods using BPP agar (Idziak & Mossel) 101
Staphylococcus aureus strains, interactive growth of with a poultry skin microflora (Gibbs, Patterson & Harvey) 191
Streptococcus cremoris, effect of high concentrations of carbon dioxide on growth rate of (Enfors & Molin) 409
Taurolin, relationship between structure and activity of (Myers, Allwood, Gidley & Sanders) 89
Teat dip, iodophor, interaction of glycerol and (Godinho & Bramley) 449
Thiaminase activity, of *Clostridium sporogenes* (Princewill) 249
Trichophyton mentagrophytes, production of a penicillin-like antibiotic by (Ryall, Holt & Noble) 359
Vibrios, fate of in percolating filters (Daniel & Lloyd) 207
Yeasts, nature and sequence of during fermentation of apples (Ethiraj, Onkarayya & Suresh) 97
Yersinia enterocolitica, isolation of from pasteurized milk (Hughes) 383
